

Backsense®

Backsense® Features & Benefits

Robust, long-range, continuous wave radar sensor systems designed for harsh conditions. Informs driver of distance between vehicle and any obstacles, whether moving or stationary. Perfect for all machines working in construction, mobile plant and refuse.

- Close detection zone combined with targeted beam pattern
- Can trigger other vehicle safety devices such as camera monitor systems or reversing alarms
- Eliminates possibility of driver interference. The audible warning buzzer cannot be switched off, providing fleet operators with peace of mind
- Extremely rugged design for severe weather conditions and all terrains
- Choice of detection ranges
- 5 stage audible and visual display
- Comprehensive certification

Helps prevent collisions

Saves collision damage costs and downtime

Can be set up to trigger reversing alarms, safety lights, camera systems and digital recorders

2 Year warranty on all models

Programmable Model

BS-8000 – Programmable up to 98' length and 33' width 4530

Fixed Distance Models

BS-7030 – 10' Detection range, 8' width 4527

BS-7045 – 15' Detection range, 11' width 4528

BS-70690 – 20' Detection range, 20' width 4529

Extension cables and adjustable brackets are also available.
